

You Deserve Flexibility—Not Fine Print

Too many businesses in our space are locked into long-term agreements that don't serve them. You sign a contract, and suddenly you're stuck—whether the service meets your needs or not.

At ExpressConsent, we believe that's not how it should work.

OUR APPROACH

Your consent evidence provider should **earn your business every single month**—not rely on contracts to keep you tied down.

HERE'S WHAT MAKES US DIFFERENT:

- No long-term contracts — just simple, month-to-month billing
- You own your consent evidence from the moment it's generated
- Full access to your Certified Digital Records (CDRs) anytime
- Transparent pricing that scales with your volume

We're here to give you the compliance protection you need—without the restrictions you don't.

Because flexibility isn't a perk. It should be the standard.
